

Desert Palm Stable Management Awards Whats the fuss about?

Here at Desert Palm believe that horse riding and stable management go hand in hand. To become a great rider it is essential to know everything about horses!

Thats why we created tailored half an hour Stable Management sessions for the ones who really want to get deep into knowing more and making the whole riding experience a very special one.

The syllabus we are implementing is alongside the BHS, British Horse Society, an equestrian governing body worldwide recognised and The Pony Club. That means, that besides getting the best possible education, students could always go and undertake the BHS qualifications once they have bee awarded at Desert Palm.

The Award System

Silver, bronze, Gold and Platinum

The award system is based on a series of different syllabus, from beginners to advance, that anyone needs to pass to be able to get the award. Each award has three different levels, and when the three of them has been passed successfully the student will get the award.

The Rosettes

In conjunction with the awards, we have also introduced the Rosettes, a fun way to encourage students to achieve more.

Each student will be able to achieve a Rosette once the level of the award has been completed and the Rosette test has been passed.

Get downtime with your favourite pony whilst learning

Its all about learning and having fun...

Stable management sessions are a great way to build up confidence and create that so wished bond between you and your horse, starting from the ground and building it up all the way up to the saddle.

Desert Palm are offering classes alongside with their riding lessons so they will be able to work towards a determined goal, adding excitement and fun to the whole riding experience.

By being involved with the Desert Palm junior young riders club awards once your children have reached the gold award they may apply to join the Desert Palm BHS Pony Club.

For the little ones

its a great way to introduce them into caring and into looking after a living creature with all of the responsibility this entitles and working together and interacting with the rest of the group.

Introducing them into new skills.....
